CGBSE SUPPORT

SERIES - 1

**IMP SERIES Introduced
by
“CGBSE SUPPORT”**

**Important Questions
for Chhattisgarh
Board Exam ‘2021’**

Disclaimer – “CGBSE SUPPORT” does not give any warranty with respect to the accuracy of contents of this important series and is providing this on the condition and understanding that it shall not be made liable in any manner whatsoever.

CLASS – 10th

Subject - Science

“Chemistry of Non-Metals”

2 Marks Questions.

1. Elements of group 18 are normally not taking part in chemical reaction . Why?
2. Which gas is used in packed food material and why?
3. Name a nonmetal which is a good conductor of electricity.
4. Write the symbol, Molecular formula, Atomic number and Atomic mass of Hydrogen.
5. What happens when magnesium metal is reacted with nitrogen?

3 Marks Questions-

6. What are Metalloids ? Give any two examples.
7. Non-Metals are Electronegative. Why?
8. Any element is given to you, how you will identify whether it is metal or non-metal?
Tell three ways.
9. Why Helium, Neon, Krypton, Xenon and Radon are called inert gases?
10. What happens on heating potassium permagnet?

4 Marks Question-

11. Explain the following industrial usage of hydrogen:
 - a. Production of heat on burning.
 - b. Reaction with him vegetable oils in presence of catalyst.
12. Compare the physical properties of metal and non-metals.
